In re Application of : DECISION ON

KUEMLER et al

Application No.: 10/588,081

PCT No.: PCT/EP2004/011457

Int. Filing Date: 12 October 2004 : PETITION UNDER

Priority Date: 15 October 2003

Attorney's Docket No.: 00137.0086.00US01

For: Composition for reducing Ox emission

In FCC Regeneration Process : 37 CFR 1.137(b)

This decision is in response to applicant's "Petition For Revival Of An International Application For Patent Designating The U.S. Abandoned Unintentionally Under 37 CFR 1.137(b)," filed on 31 July 2006.

#### **BACKGROUND**

On 12 October 2004, this international application was filed, claiming an earliest priority date of 15 October 2003.

The deadline for paying the basic national fee in the United States under 35 U.S.C. 371 and 37 CFR 1.495 was 15 April 2006. This international application became abandoned with respect to the United States at midnight on 15 April 2006 for failure to pay the required basic national fee.

On 31 July 2006, applicants filed in the United States Patent and Trademark Office (PTO) a transmittal letter for entry into the national stage in the U.S. under 35 U.S.C. 371, and a petition under 37 CFR 1.137(b), which was accompanied by, *inter alia*, the national basic fee, and the petition fee.

#### **DISCUSSION**

A grantable petition to revive an abandoned application under 37 CFR 1.137(b) must be accompanied by (1) the required reply, unless previously filed. In a nonprovisional application abandoned for failure to prosecute, the required reply may be met by the filing of a continuing application; (2) the petition fee as set forth in § 1.17(m); and (3) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to this paragraph was unintentional. The Commissioner may require additional information where there is a question whether the delay was unintentional; and (4) any terminal disclaimer (and fee as set forth in § 1.20 (d)) required pursuant to paragraph (c) of this section.

Application No.: 10/588,081

2

Petitioner has provided: (1) the proper reply by submitting the basic national filing fee, (2) the petition fee set forth in §1.17(m) and (3) the proper statement under 137(b)(3). In this application, no terminal disclaimer is required.

Accordingly, the petition is deemed to satisfy requirements (1), (2), (3), and (4) under 37 CFR 1.137(b).

#### **DECISION**

The petition under 37 CFR 1.137(b) is **GRANTED**.

This application is being returned to the United States Designated/Elected Office (DO/EO/US) for continued processing.

#### STATEMENT ACCOMPANYING FORM PTO/SB/64/PCT

Sir,

The Applicants have always considered international patent application number PCT/EP2004/011457 to be of value to them. The Applicants designated the United States of America in the international patent application and always maintained a strong desire to enter that application into the national phase before the United States Patent and Trademark Office (U.S. PTO) and to ultimately obtain a United States Patent therefrom.

The Applicants delay in entering the national phase was not caused by any desire to defer patent prosecution expenses or official fees. Further, no internal decision was taken by the Applicants to abandon the application. Rather, the entire delay was due to an internal miscommunication during the international phase.

Respectfully submitted,

Jacobus C. Rasser

(Reg. No. 37,043)
